NOV, OLD WORLD BUILDERS, DOUG DIVESTA ENGINEERING

Mr. DiVesta pointed out on the plans, area #1. This would be on the south side of Eden Way. They are proposing to go in and mitigate this area. They will be installing hay bales, layers of shredded mulch, and pull out the tops and the trees that were left behind by the previous owners. Area #2, which is near #14 & 45 wetlands flag is also, in bad shape. They are planning to pull out only the cut trees and not the ones that fell down naturally. Then where a skidder was stuck there are signs of soil eroding away, so they would like to fill in that area. Area #3 has a lot of deep ruts, again because of the skidder. They will also be mitigating this area. Area 2 & 3 cannot be mitigated immediately due to weather so they are planning to do these areas

in the springtime. Area #1 can be done now. Around Lot 19 there are a lot of trees that were taken down just over the hillside and Mr. DiVesta explained that he is looking for direction from the commission as how he should remove the trees. He also gave a list of the plantings they are proposing. He is asking that the commission lift the Notice Of Violation first in order for them to proceed.

Motion made by D. Goodrich and seconded by P. Perrefort to schedule a site walk on Saturday, November 13, 2010 at 9:30a.m. at the site. Motion passed unanimously.

Motion made by D. Goodrich and seconded by P. Perrefort to move the regular schedule meeting for November 22, 2010 to November 29, 2010 and to schedule the public hearing for Notice Of Violation, Old World Builders, Doug DiVesta Engineer, on this date and then to refer this application out to Sean Hayden, Northwest Conservation District. Motion passed unanimously.

Motion made by K. Stevens and seconded by P. Perrefort to adjourn at 7:29 p.m. Motion passed unanimously.

Respectfully submitted:
