Our 2013 Vendors (so far—more keep calling to get in on the market):

- **Holbrook Farms— a local Farm!** Holbrook Farm is a family farm; however, it is not the traditional version of a farm that has been tilled by the same family for generations. Although we have lived on the 13-acre property for 34 years, the expansion of our farm to one that welcomes visitors is relatively new. "Holbrook Farm has been clean of pesticides and herbicides for at least the last 30 years that we have owned the land. We don't spray with pesticides, we try to use beneficial insects and companion plants," John says, "and we don't use herbicides. Weeds have a place in the ecological mix as long as they are controlled." At Holbrook Farm, they specialize in the chemical free growing of vegetables, cut flowers, herbs and berries. We sell fresh baked goods, jams, jellies, pickles and honey. We also have chicks and chickens for sale, as well as fresh eggs. <http://holbrookfarm.net/>
- **Percy Thomson Meadows—** At Percy Thomson Meadows our goal is to raise fresh all natural / grass fed meat and vegetables, to promote the growth of agriculture in Connecticut, to teach the importance of knowing where your food comes from, and to provide the best quality product for our CT family & yours! We offer the best all natural beef, pork, chicken and lamb! We feed our animals all natural feeds, no chemicals, no antibiotics, or growth hormones. They are raised outside in the fresh air, with barns to go in to get out of the weather. We use a USDA Certified Butcher shop for processing our beef & pork. All of our grass fed meats are vacuum sealed to keep them fresh longer. **CSA SHARES ARE BACK! Due to an overwhelming request for CSA shares we are offering them again this year!** EAT FRESH, BUY LOCAL <http://www.percythomsonmeadows.com/>
- **Mitchell Farm—** Rob and Jodi Mitchell are the eighth generation to grow on their 248-year-old family farm in Southbury, one of oldest farms in the state! Visit their farm stand chock full of healthy fruits and vegetables grown on 500 acres in pastoral Southbury. You'll find potatoes unearthed that very morning, ripe sugar baby melons, sunburst squash, farm fresh eggs, honey and so much more. And if it is sweet corn that you're looking for, customers swear by Mitchell's because, due to its prime location, it grows sweeter and later into the season than many other crops of corn. It's located on scenic Lake Zoar in Southbury. Year round, we sell hay, fieldstone, firewood, eggs, chickens, pigs, and cattle. We will be bringing our home grown produce to the market weekly, including our specialty--sweet corn!
