Welcome! Thank you for your interest in opening or expanding a business in the Town of Bethel. Whether you are starting, purchasing, expanding or relocating your business, please use this guide to help you through the process.

The amount of paper work, detail and review is based upon the legal structure, type of business, complexity of the project and the property the business is located. You may be required to sequence your steps differently and may be required to file other state licenses, registrations or permits in addition to those mentioned below.

The Office of Economic Development is here to assist you. We can help you with permitting, financing, local site selection and information on business assistance programs. The Office of Economic Development can be reached at (203) 794-2822 or eddirector@bethel-ct.gov.

Federal and State Registration, Licensing and Permit Requirements

Visit www.cerc.com/resources/assistance-and-information/ or call 1-860-571-7136 for more information about state and federal requirements.

Local Requirements

Before you start the process, check with the Land Use/Planning & Zoning department to assure your place of business is zoned for the type of business you plan to open and any other considerations. The Land Use/Planning & Zoning department can be reached at 203-794-8578.

And, if leasing or buying property, please obtain a statement from the Tax Collector's office that all current taxes levied against the property have been paid in full and that there are no unreleased tax liens encumbering the property. The Tax Collector's office can be reached at 203-794-8509.

For your convenience, all departments are located in the C.J.H. Municipal Center at 1 School Street.

Here are some questions you should be prepared to answer before starting the permitting process:

1. Are you starting, purchasing, expanding or relocating a business?
2. What type of business are you?
3. What type of business structure (Corporation, Non-Profit Corporation, LLC, LLP, LP, General Partnership, Sole Proprietor)?
4. What does your business do?
5. Where will your business be located?
6. Will there be a change of use, changes to the property, interior renovations, new construction, additions or alterations?
7. Will you have employees?
8. Will you need business signage?

Checklist for Opening a Business

Please use this checklist to guide you through the permitting process. Once your business has completed the process, you will need to schedule the required inspections with the Land Use/Planning & Zoning, Health, Public Works and Building departments in order to receive your Certificate of Occupancy and conduct business on the property.

To expedite the permit process we recommend you submit applications to the Land Use/Planning & Zoning, Health and Public Works departments simultaneously. Forms are available on-line or from the municipal offices.
